

Spring in Year 5

English

This term we will use the play Macbeth to write a free verse poem based on the witches at the start of the play; a persuasive speech in which Lady Macbeth convinces Macbeth to murder the king and a balanced argument to ascertain who the true villain of the play is.

We are reading...

Grammar:

- Multi-clause sentences
- Parenthesis
- Adverbs to show degrees of possibility.

Maths

This term we will learn how values can be expressed as fractions, decimals and percentages and how to convert on to the other. We will calculate using whole numbers and decimals.

Science

This topic we will recap states of matter to help us to think about the changes that substances can undertake. We will make solutions learn and that some substances can be retrieved from a solution.

LUNAR

This term we will learn about the biomes of the earth. We will use our knowledge of physical geography to classify biomes and locate them on world maps. We will consider how plants and animals are adapted to live in such climates and the impact humans have on them.
