

Spring in Year 5

English

Nevermoor: The Trials of Morrigan Crow

This term our writing will be inspired by Nevermoor, by Jessica Townsend. We will be writing:

- Letters of apology
- A detailed setting description
- A narrative sequel
- A persuasive advert for the Hotel Deucalion
- A survival guide

We are reading...

Maths

Fractions, decimals and percentages

This term we will learn how values can be expressed as fractions, decimals and percentages and how to convert one to the other. We will calculate using whole numbers and decimals.

Science

Materials

To know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution. To compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity

In grammar we will be focusing on:

- Punctuation for parenthesis
- Modal verbs to suggest degrees of possibility in independent writing
- Using commas to indicate parenthesis.
- Use of organisational devices
- Different sentence structures

LUNAR

Biomes

This term we will learn about the biomes of the earth. We will use our knowledge of physical geography to classify biomes and locate them on world maps. We will consider how plants and animals are adapted to live in such climates and the impact humans have on them.
